Campus Pilot Project, 2014-16

- Piloted the expanded use of an online course evaluation tool
- Partnered with CoE and DoIT Academic Technology
  - Assessment, Evaluation, Feedback & Intervention System (AEFIS)
  - College of Engineering since 2011
Campus Pilot, cont’d

- Explored a campus-wide solution to support course/program assessment needs including online course evaluations
- Request for Proposal (RFP): began January 2015
- RFP process recently completed (January 2016). Contract awarded, pending final negotiations
- Vendor choice: AEFIS

Campus Pilot Feedback

- Fall semester, 2015
  - 7 schools/colleges
  - 50 departments (35 in spring 2015)
  - 972 courses; > 47,000 student submissions
  - Overall response rate: 55.7%;
  - School/College response rates, 55.1%-67.7%
  - Course level, highly variable
Campus Pilot Feedback, cont’d

- Post-pilot survey responses
  - Results quickly available
  - Easy to manage survey questions/schedule
  - Automated reminders to students
  - Reporting limitations
  - “Clunky” interface, needs improvement

Moving forward...

- Spring 2016 – continue to support current use levels
- Explore and plan for broader campus adoption
- Work with faculty/instructors/departments to improve use, reporting, integration
- Address concerns & challenges around response rates
Moving forward, cont’d

• Look to research and evidence-based practices
• Analysis of local response rates
• Provide more resources to support faculty and departments
• Take advantage of the integrative nature of an online tool and other reporting and assessment needs
